DETAILED ACTION

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 7/30/04 has been entered.

EXAMINER'S AMENDMENT

2. Authorization for this examiner's amendment was given in a telephone interview with attorney Brandon While on 8/20/04.

3. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the abstract:

The abstract has been replaced as follows:

-- A thermoplastic container, such as a bottle, obtains by extrusion-blow or injection-blow molding and having a petaloid base (6. 7). The base comprises a convex wall (7) hemispherical in shape; said wall (7) is linked to the wall (2) forming the container body by a marginal zone (8) with a curve (R1, R2). Members (6) originate

from the hemispherical wall (7) and are separated in pairs by a pad thereof; the top end of each member is directly linked to the wall (2) forming the body. --.

In the claim:

In claim 5, line 2, "the central pole" has been changed to -- a central pole --.

In claim 10, line 2, "the central pole" has been changed to -- a central pole --.

4. The following changes to the drawings have been approved by the examiner and agreed upon by applicant: a drawing correction will be filed, in which the cross section symbolic of plastic will be shown in figs. 3 and 4. In order to avoid abandonment of the application, applicant must make these above agreed upon drawing changes.

5. The following is an examiner's statement of reasons for allowance: Claims 1-12 are allowed because the prior art or the record, for example:

Jakobsen (4,721,223) does not disclose a monolithic container (a one-piece blow molded plastic container) having a petaloid base, the base including a base wall being hemispherical except for a peripheral marginal linking area with the container wall, the peripheral marginal linking area has a curve with an inflection, wherein the inflection is a change in curvature of the curve from a concave curve to a convex curve.

Motill (4,368,825) does not disclose a container having a petaloid base, the base including a base wall being hemispherical except for a peripheral marginal linking area with the container wall, the peripheral marginal linking area has a curve with an inflection, wherein the inflection is a change in curvature of the curve from a concave curve to a convex curve.

6. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to LIEN TM NGO whose telephone number is 703-305-0294. The examiner can normally be reached on Monday through Friday from 8:30 AM -6:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, LEE YOUNG can be reached on 703-308-2572. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
